

DAV SCHOOL, IITH CAMPUS

DAV-IITH/Circular-03/2025-26

Date: - 20-06-2025

Dear Parents,

This is to inform you that we have begun foundation classes for grades VI and VII from the academic year 2023-24 and we are planning to continue with the same this academic year also. The classes will start from 1st July, 2025(tentatively). These foundation classes are intended to provide additional support to students seeking to strengthen their understanding of Mathematics, Physics, Chemistry, and Biology.

In Foundation Classes, we are currently focusing on selected topics from Physics, Chemistry, Biology, and Mathematics. Our aim is to provide in-depth teaching of these subjects, considering competitive exams, addressing any doubts, and ensuring that relevant problems are thoroughly covered during these classes. The topics to be covered will be decided by our senior secondary teachers, and we plan to cover 3 to 5 chapters for each subject. However, students who are genuinely interested in gaining in-depth knowledge of specific concepts and can effectively manage their regular school work are encouraged to join. The concepts will be taught by our school teachers.

The classes are scheduled in the evening from 3:30 pm to 4:30 pm, with each day dedicated to one subject. Please note that this is not a paid course, and participation is not compulsory.

Regular attendance is essential. Irregular students will not be allowed into the classes.

Please share the student's willingness by ticking YES and Unwillingness by ticking NO.
